RULES FOR USING THE CERTIFICATE

For the purpose of releasing the product on the market, this Certificate may only be used within the period of its validity and under the condition that the provisions of the standards according to which the product has been certificated are applicable. If the normative documents applicable to the certified product have changed, or new normative documents have been issued, the usability of the Certificate must be reviewed.

The Certificate may only be used as a Certificate for the product specified on the previous page. This also holds true for the use in advertising, promotional and commercial materials. This Certificate may be copied in its entirety without written consent of the SZÚ. Unauthorised or deceitful use of the Certificate may result in its withdrawal.

It is prohibited to change, amend or overwrite the data contained in the Certificate.

The Certificate may not be used to document the properties of products changed without the consent of the SZÚ in such a way that conformity with the standard specified on the previous page is affected.

The Certification Body requires that the Certificate holder keeps records of all complaints and corrective actions applicable to the products included in this Certificate.

The validity of the Certificate is conditioned by the compliance of the manufacturing method with the certified factory production control system and the adherence to the contractual conditions regarding the surveillance of products released on the market.

The inspection period is 1 year.
